Donations – Bob will send flow chart and annual summary to SPCURE (as they had previously requested) with the donation request. Casey will send remaining donation requests by email, unless the Project Coordinator would prefer to send out the donation requests. Bob will discuss with the Project Coordinator. Diane has entered invoices for payment into CWA webpage payment function.

Reg. 85 data submittal update in item below.

**4. CDSN CONTRACTOR OR UPDATE FROM PRESIDENT**

- The CDSN REG85 upload was submitted to CDPHE earlier this morning. The data self-uploaded by MWRD (Jordan), Poudre Alliance, and Brown & Caldwell was packaged and submitted between 3/31 and 4/6. The Contractor had one organization that held up our CDSN batch while an issue on their end was resolved. But all data is in early, beating Wednesday's deadline.
- The Contractor is working with Skip to learn about CDPHE's refined and nuanced REG31 data request for non-REG85 data. CDSN should hear back today (Monday 4/13/2020) and can submit what they want. All data has been uploaded. It is just a question of what CDPHE actually wants to receive.
- Next up will be working on the GIS updates beginning later this week on the CDSN webpage.
- Invoices from the CDSN Contractor have been forwarded for approval to CWA and President on Monday 4/13/2020. President approved payment.

**5. UPDATES**

- Thoughts on go-to meeting format. – Everyone likes how it works. Casey and others working on Data Literacy and other outreach presentations on electronically available format due to current virus times. Casey is asking for ideas and suggestions from others and what they are doing with maintaining connections electronically. Can CDSN ESRI be utilized with CWA partnering with ESRI costs, item to investigate. Greg with

Ag Water Alliance, they are having trouble with rural internet for work, looking forward to being able to get on the road again and things back to normal. Diane developing a video to be edited and then uploaded as a YouTube video, preparing the presentation up front to be watched by anyone anytime. Data Literacy has some field experience of developing useful agenda, now need to learn how to develop the technical presentation with relevant information (who is the audience and what is relevant to them). Experiment a new process with one or two entities. Tim willing to share his experience as a reviewer of developed material. Casey will send out list of entities that are interested in Data Literacy and develop a trial run agenda to those on this call plus Jordan who was out sampling during the call. Tim suggested adding the value of long-term sampling amid virus to develop valuable trend analysis without data gaps. CWQMC/CDSN will go back to conference call with CWA conference call number for May's conference call, Linda will work with Diane for the number.

- CDSN flowchart, comments or where it is to reside. – draft finalized, to reside on the CDSN webpage.
- Data Literacy updates. – see go-to-meeting notes above.
- Donation email/invoice requests for CDSN. – see financial notes above. Bob will have Lynn assist with the LOWER Poudre River WQ group contact for a donation for CDSN.
