The data call is for Reg 32, Arkansas River and Reg 36, Rio Grande River for prep for the 2023 Rulemaking Hearing. Also, for Regs 33 and 37, Colorado River (upper and lower) for prep for the 2023 Rulemaking Hearing. President received text from CDSN Contractor on update this morning. The CDSN Contractor was working with Division for today's data call and will reach out to us for an update after.

### 5. UPDATES

- Data literacy updates and/or ongoing work with groups. No update
- Healthy River Grant recipients and their data storage check. Diane and Jordan thought it best to postpone any further action until after the 2021 Sustaining Colorado Watershed Conference in Avon. Also recommended we ask Tammi Renninger with ElephantFish if she would be interested in getting involved.
- CDSN data providers conversation/survey committee. The link for the Survey is ready to go; <https://coloradowatershedassembly.wufoo.com/forms/st7ulxh1dw5iu4/>. We still need some assistance getting email addresses for our CDSN users. The council thought we should start attaching the link for this survey to all correspondences (e.g., CWQMC Agenda's, Minutes, and CWA Invoices, etc.).

## 6. NEW BUSINESS

- A table at the 2021 Sustaining Colorado Watershed Conference for CDSN information  
Poster boards have disappeared during Covid. Bob (CDOT) has purchased new boards and posters being made. CWA has offered to cover the cost of a table at the 2021 Sustaining Colorado Watershed Conference in Avon.
- Bob McDade will be attending a conference in Durango during October's CWQMC conference call. So, it was decided to move the CWQMC Conference call to in person during the CWA Sustaining Colorado Watersheds Conference in Avon.
- We discussed the need to develop a user manual for AWQMS Data Management System. Casey volunteered to reach out to Gold System for this information. We will be looking forward to what Gold Systems has during the November 17<sup>th</sup> CWQMC Conference call.
